PROFESSIONAL SUMMARY

Motivated software engineering enthusiast with a solid background in logical reasoning, mathematics, aptitude, and a heartfelt interest in competitive programming. Actively seeking dynamic opportunities in the technology sector to apply my skills and contribute to innovative solutions.

TECHNICAL SKILLS

- Programming Languages: Proficient in Java, C and C++
- Web Technologies: ExpressJS, NodeJS, React and JavaScript
- In-depth knowledge of Data Structures and Algorithms
- Proficient in Technologies like Git, MongoDB, MySQL

EXPERIENCE

OCTANET SERVICES PVT LTD (WEB DEVELOPER INTERNSHIP)

- Completed a web development internship, creating a responsive and visually appealing website using HTML and CSS.
- Demonstrated strong self-management and problem-solving skills to deliver a high-quality project independently and within the specified timeframe.

ACADEMIC PROJECTS

ELECTRONICS: YOUR ONE STOP TO ELECTRONICS PRODUCTS

- Designed and developed a visually captivating electronics product website featuring a wide range of products and brands.
- Integrated secure payment processing for seamless transactions. Utilized HTML, CSS, and JavaScript to enhance user experience and engagement.

SERPENTINE SPRINT: A SNAKE GAME

- Developed an interactive Snake game using Java, utilizing Java Swing for the GUI and Java AWT for game graphics and event handling.
- Implemented real-time collision detection with smooth animations and responsive keyboard controls for an enhanced user experience.

DOCTOR'S APPOINTMENT APPLICATION

- Engineered a robust web application using the MERN stack, with RESTful APIs for efficient appointment scheduling, history tracking, and real-time notifications.
- Ensured scalability and security. Achieved seamless user experience and efficient data management through meticulous design.

EDUCATION

Bachelor of Engineering (BE) in Computer Science and Engineering
Chitkara University, Punjab (CGPA: 9.14)
July 2021 - July 2025
